SUSTAINABLE DINING

Campus Dining has teamed up with University Housing to decrease the impact that their departments have on the environment.

Campus Dining follows a Sustainable Dining Program and University Housing has established a comprehensive residence hall recycling program all designed to decrease the carbon footprint of WOU.

Based on the Re-duce, Re-use, Re-cycle premise, the Campus Dining Sustainable Dining initiative is a work in progress. Campus Dining has long been a proponent of Recycling and recycles its cooking oil, plastic, glass, tin, and paper.

Also, Campus Dining strives to support and purchase from local or Oregon vendors to not only support local business, but to support businesses that strive to be sustainable in their own business practices. When possible, these Campus Dining initiatives have decreased transportation costs and have helped to provide the freshest and best products available from ecologically minded vendors.
