### Custom Sidebar Block

Did you know that you can create customized blocks for the sidebar of your course page in Moodle? These blocks can be a great way to orient students to your course. They can contain a picture of your textbook, links to great websites, a welcome message, or anything else you can imagine!

Here's how to do it:

1. On your course page, turn editing on.
2. On the bottom right, choose "HTML" from the "Add a Block" menu
3. Your new block will appear. Click the little hand icon to edit it.
4. Choose a title for your block (or none at all) and add content using the editing tools.

Save your changes and you're all done! Have a great week and a Happy Halloween!
