Hi Steve,

Here's how to add and move course blocks!

Add a block
On your course page, first click the button to turn editing on. Then, in the bottom of the left sidebar, you can use the *Add a block* menu to choose any blocks you'd like to add to your course (i.e. Upcoming Events, Latest News, etc).

Move the block
The new block will be added just above the *Add a block* menu. But you can then click the crosshairs icon in each block to drag and drop it anywhere you like, including the righthand sidebar of your course.

If you have any questions about doing this, please don't hesitate to let us know!

Best,

Elayne

> Hi Elayne - I'm setting up my ES476 moodle site, legacy/converted from 2 years ago, and I would like to get the blocks/banners for latest news, upcoming events, News/Forums on the right hand side of the page, like is occurring on my ES322 moodle site. Not sure what settings are used to create those?
