Annotate Student PDFs Online

Posted on **September 22, 2014**

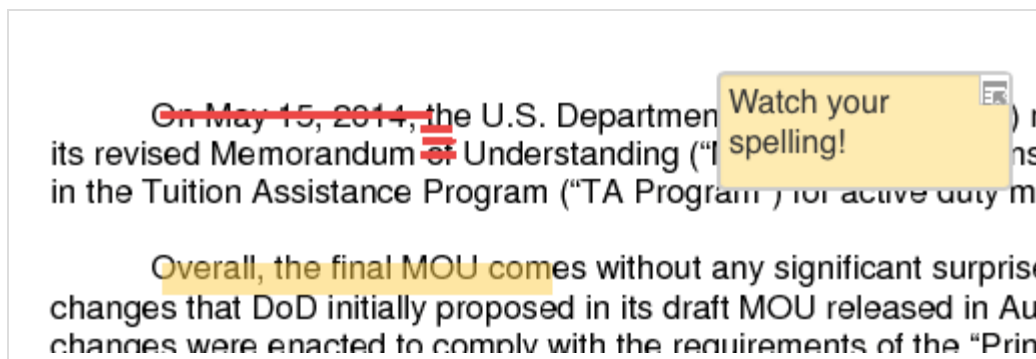

As WOU Moodlers get ready for fall term, we'd like to showcase some of the new features in Moodle version 2.7! For example, instructors can now annotate PDF student assignment submissions. When a student turns in a PDF file in an assignment activity, you can click on this button to leave feedback directly on the file:

This will open the PDF file and provide you with an editing toolbar that looks like this:

These tools allow you to highlight, draw shapes or freehand, and leave notes for your students right on the document without leaving your browser:

We hope this helps make grading more fun! Happy Moodling 😊
