

March 16, 2020

Dear campus community,

Earlier today, Gov. Kate Brown altered her previous guidelines on gatherings to limit the number of people to 25. As such, we will be making changes to ensure only small numbers of people are allowed at a time in Hamersly Library, the Pacific Room of the Werner Center and the Peter Courtney Health and Wellness Center. The new procedures are being developed and will be posted at each affected location and on our central [COVID-19 website](#).

Thank you all for your patience and flexibility as we work under our current safety protocols against the COVID-19 virus. I am heartened by the cooperation and understanding I've been witnessing on campus as we all deal with these changes.

Sincerely,

Rex Fuller
President
