

How to Apply for Your Undergraduate Degree

(To be eligible to apply to graduate you must have completed at least 135 credits!)

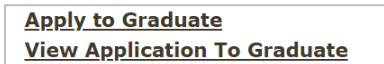

1. Login to the WOU [Portal](#) and open Wolf Web:

2. Select the Student Menu and then Student Records:

3. Select the Apply to Graduate option:

4. Select the most recent term of enrollment (later you will select the term in which you plan to graduate). If it displays an error message reading “No curricula available for graduation application”, contact graduation@wou.edu (include your V# in your message!)
5. The system will guide you through the remaining steps.
 - **Completing more than one major?** Submit one application. Make sure all majors are listed, if they are not, before submitting your application to graduate, you need to declare the missing major using the change of major process.
 - **Completing multiple degrees or credentials (such as a BA and a BS, or a degree and a certificate)?** You will need to submit separate applications, one for each credential.
