

Cadet Summer Training Opportunities

Airborne

If jumping out of a perfectly good airplane sounds like fun, then Airborne School may be of interest to you. Earn the silver wings of the U.S. Airborne at this three week school located at Fort Benning, Georgia. Airborne School is offered to qualified cadets during the summer of their freshman, sophomore, and junior years. AIRBORNE!!!

Air Assault

Learn how to establish helicopter landing zones, prepare sling loads for Air Assault operations, and learn how to rappel from a helicopter at this two-week course. Qualified cadets can attend any one of the schools located at Schofield Barracks, HI, Fort Drum, NY, Fort Polk, LA, or Fort Campbell, KY.

Cadet Troop Leading Time (CTLT)

Cadet Troop Leading Time is an internship in which 3rd year cadets go to Active Duty units all over the world and learn the ropes of being a platoon leader. Cadets are assigned to every type of army unit and gain valuable knowledge and experience as a 2LT.

Engineer Internship Program (EIP)

Engineering Internships are hosted by the US Army Corps of Engineers (USACE) and Directorates of Public Works at select Army installations. Cadets assigned to this internship will work exclusively in an engineering capacity and under the direct supervision of an engineer. The majority of the engineering internships are not co-located on a military installation. Cadets must be enrolled in Aerospace, Civil, Electrical, Environmental, Mechanical, or Structural Engineering degree. Cadets must have a desire to branch into the Engineer Corps (EN) and pursue becoming a part of the US Army Corps of Engineers (USACE). Engineering internships are located across the U.S. and at overseas locations with USACE.

Cadet Field Training

Cadet Field Training is an 8-week program of instruction focused on Military Training, Physical training, and Moral, Ethical, and Professional development. Training is conducted at Camp Buckner, NY and the United States Military Academy at West Point, NY. During training there is a one week deployment to Fort Knox for mounted maneuver training. Cadet Field training provides cadets with an environment in which they develop leadership skills they need to later fulfill their obligations as officers in the Army. Cadets will train on topics such as reflexive fire, weapons training, obstacle course, fire support, leadership development, land navigation, advanced land navigation, mounted maneuver training, engineer training, physical training, and close quarters combat.

Drill Cadet Leadership Training (DCLT)

The 4-week DCLT Program provides cadets the opportunity to apply leadership skills, interact with highly skilled and experienced Noncommissioned Officers (NCOs) and drill sergeants, and improve common task skill proficiency in an Army training environment. Cadets serve in positions with the cadre of Initial Entry Training (IET) and One-Station Unit Training (OSUT) units — Basic Training.

Basic Camp (6 Credit Hours)

Cadets who join Army ROTC and have not completed the first two years of the Military Science classes or have not completed enlisted basic training, will attend this four-week course at Fort Knox, Kentucky, prior to starting their MS III class. Basic Camp gets you up-to-speed with your peers when the MS III class begins. Cadets receive both pay and academic credit. Click [here](#) to see a video of Basic Camp.
