Question was asked about cleaning of the WUC not being like the past.

- Chelsea mentioned that prior to COVID we had 4 full time custodians working in the WUC as well as some student custodians. With the large

budget cuts the last couple of years, we are at 2 full time custodians and a couple student custodians.

- Student Custodian are not expected to perform at the same detail as the professional custodian.
- If building residents see something that is not clean that they cannot take care of like a carpet stain or a floor needing mopping, please let Chelsea or Info Desk know so it can be addressed when possible. But, if a building resident sees something they can take care of, like picking something off the floor, dusting within their offices, etc that would help keep the WUC clean, that would be great to do.

No announcements.

Adjournment was approximately 227pm
