UNIVERSITY

# Transfer Evaluation System (TES)

What is it

Why use it

Implementation timeline

How we use it

# Transfer Evaluation System (TES)

What is it?

From College Source is a powerful tool for researching transfer credit, tracking evaluations, and managing course equivalences all in one system.

# Transfer Evaluation System (TES)

Why use it?

- To research course descriptions all in one place
- Reduce time spent finding course descriptions
- Match to user-defined generic courses
- Proactively explore equivalencies to generate matches
- TES provides a workflow routing for faculty review of courses
- Track responsiveness to transfer credit evaluation
- Manage and maintain up to date equivalencies

# Implementation Timeline

The goal is to be fully integrated by Fall 2019

- Inputting addresses into Banner for transfer institutions
- Send data to TES to review
- Data clean-up
- Western's data will be loaded into TES
- Department/Divisions will pilot the workflow
- UCS will create a script to run nightly so that all data input into TES can be moved to Banner.
- New public facing articulation tool powered by College Source
