How to Open GSP from any Internet connected computer (Be sure to open GSP5)

Computer Lab in MNB 110
use the Desktop Icon shortcut or Start > Programs > GSP > GSP 5

WOU Computer Station or Home Computer (PC)
1. Log on to the Terminal Server--ts9.wou.edu
(Start > Programs >Accessories>Communications>Remote Desktop,
or sometimes
Start>Programs>Accessories>Remote Desktop)

--be sure to log on to Mash, not "this computer". Log in with your usual pawprint name and password

2. Use Start > Programs > Sketchpad > GSP 5
(Note that sometimes you may see GSP 4.01 in the Program menu – don't use it
– look for the Sketchpad folder where GSP 5 is)

Home Computer (MAC)
1. Open the Remote Desktop Connection> type in ts9.wou.edu> click the Connect button> log on to Mash, not "this computer". Log in with your usual pawprint name and password.

2. Use Start > Programs > Sketchpad > GSP 5
