

AA 5.1 TI #5,6

Understanding	Accuracy	Communication	Presentation	Total
2	a) – e) 10	2	2	16

5. *Math Concepts:* For each of the following, sketch a black and red tile model to show computing the sum or difference. In each case, explain your thinking.

a. $+7 + -3 = ?$

b. $-4 + -3 = ?$

e. $-3 - -7 = ?$

c. $-4 - +3 = ?$

d. $+5 - -2 = ?$

Understanding	Accuracy	Communication	Presentation	Total

6. *Math Concepts:* For each of the following, sketch a black and red tile model to show computing the product or quotient. In each case, explain your thinking.

a. $+6 \times -2 = ?$

b. $-6 \times +2 = ?$

c. $-6 \times -2 = ?$

d. $-6 \div +2 = ?$

e. $-6 \div -2 = ?$
