

Math 213, Exam TWO Review

Exam TWO is an in-class exam given on Tuesday, November 9, 2010

- For Exam TWO you should study your assigned homework, the examples in our textbook and the class activities we have done in class for §9.4, §10.1 - §10.3
- Exam TWO is a mix of multiple choice and short answer questions.
- You may use your calculator and your personal manipulative kit during the exam.
- You may not use a cell phone or any other non-academic electronic device during the exam.
- You may use one 3" x 5" card of notes on this exam (30 in²)

CONCEPTS TO KNOW

- Chapter 9 Review items: page 646: #5
- Chapter 10 Review Items: page 725: # 2 - 5

REVIEW PROBLEMS

- Practice problems: Chapter Nine Test, page 648: #12 – 15, 19
- Practice problems: Chapter Ten Test, pages 726 & 727: # 2 – 4, 6 – 9, 11 – 15

I will feel free to draw from all assigned homework & class activities! Pay particular attention to:

- The Text One Page Math Activities: §9.4, §10.1, §10.2, §10.3
- Activity Sets: §9.4 (#1,2), §10.1 (#7), §10.2 (#2, 3), and §10.3 (#2, 3, 8)
- §10.2 Problem Solving Activity
- Area of Trapezoid and Parallelogram worksheet

Study Ideas

- Work problems from the text and the activity book; don't just read over already done work. The more problems you can work, the more confident you will be during the exam.
- Work with a study group, discuss ideas.

Your exam will cover all assigned homework & class activities! Just studying the Chapter Test questions will not be a sufficient review for Exam Two!
