Details

Title: Earth Science Senior Seminar Theme Session - "Forest Hydrology and Geomorphology: Perspectives from the Pacific Northwest"

Type: Presentation (Sponsored)

Session Chairs:

- Steve Taylor (taylors@wou.edu)

Description:

This theme session involves presentation by WOU Earth Science students enrolled in ES407 Senior Seminar. The focus is on forest hydrology and geomorphology with case study examples from western Oregon. Watersheds are comprised of channel networks and represent one of the most fundamental landscape systems on the Earth’s surface. They provide ecological services along riparian corridors that form critical habitat in the Pacific Northwest. The historic interplay between human occupation, intensive land management, and fluvial systems has resulted in significant impairment of waterways over the past century. This theme session provides an overview of hydrogeomorphic processes in relation to forest management practices as applied to mountainous watersheds in western Oregon. Study topics include hydrologic process, mountain geomorphology, soils, erosion / sedimentation, wood recruitment, carbon cycling and effects of climate change.

Registering for a Sponsored AES Session

First, we are very glad that you are going to present at AES. Yes! These instructions are meant for students who have been invited by a faculty or staff member to participate in a sponsored session. If that is not you, please stop with these instructions now—you want the instructions on how to register for an open session. If you are presenting a poster, then you’ll want the instructions on how to register for a poster session. If your faculty or staff invited you to present in a sponsored session, you will need some information in advance.

In a Group?
Are you participating or presenting as a group? If you are presenting as a group, then make sure that only one of you registers—but be sure that you include all of the group members’ names.

   d. The deadline for submitting an abstract is May 15th. If you miss this date, you can still present at AES. However, if you miss the deadline, the abstract won’t appear. If you miss the deadline, you will have an opportunity in June to add your digital abstract.

19. Hit Submit in the lower right.
   a. If Submit does not work, make sure that ALL of the required fields are completed.

20. If you have any technical problems, be sure to take a screenshot of what you see and contact your mentor so that they can solve the problem with AES.
